CARRANZA STEEL RING IS BROKEN BY REVOLT

Part of "Steel Ring" Joins Rebels in Sonora and Cripple Federal Government.

Confirmation Received of 4,000 Federals Joining Rebels

(By Associated Press.)

Agua Prieta, Sonora, April 29.—President Carranza's "steel ring" which, it was announced from Mexico City, he intended placing about revolutionary Sonora, has been broken and part of the ring has joined the revolution, reports to this base of operations indicated today.

In Chihuahua, reports tell of additional Carranza troops joining the revolt, and confirmation, it was declared, has been received of the defection from the Carranza troops of the four thousand who were reported to have quit Carranza yesterday.

CONDENMED MAN TAKES BLAME FOR THE CRIME

Confesses That He Alone Murdered Official in The Bronx Station.

Others in Death Chamber May Be Saved.

(By Associated Press.)

Ossining, N. Y., April 29.—A drama on which hinges the fate of three men was enacted today in the death house at Sing Sing prison.

Condemned to die in the electric chair tonight with three companions, Joseph Milano made a confession to the warden in which he asserted he alone was responsible for the death of a Bronx station agent, who was robbed and murdered last year.

After the confession was made, the Governor was notified in an effort to secure a stay of execution.

PONTIAC MAN REPUDIATES HIS MURDER STORY

(By Associated Press.)

Pontiac, Mich., April 29.—Anson Best today, in the presence of his attorney, the prosecutor and newspaper men, repudiated the confession the prosecutor declared he had made in the Vera Schneider murder case.

The prisoner maintained that his first story, told when he was stopped at the scene of the murder Sunday morning, is the truth, and that his admissions made, according to the prosecutor, yesterday were all false and due to his fear of officers and fatigue from questioning.

MY WORD, OLD TOPPER, PIPE THE STYLE! MILADY ADOPTS THE BLOOMIN' MONOCLE

The Misses Erica Mackay, at left, and Irene Enwright, with their monocles, watching a performance of "Irene" at Vanderbilt theater, New York.

When Mrs. Geoffrey Taylor, charming wife of the aide-de-camp to the governor of New Zealand, recently appeared in the royal box at the opera House in London wearing a monocle she created a sensation. And any such sensation in these days means a fad. Hence the monocle fad for milady. The photo above shows two New York girls who have already adopted the eyewear.

AMERICAN TROOPS READY FOR IMMEDIATE ACTION ALONG THE RIO GRANDE

No Civilian Allowed to Cross International Bridge At El Paso As Revolt is Threatened.

Fear of Outbreak in Juarez Keeps Populace in Expectancy.

Rebels Are Driven From Chihuahua City On Wednesday Night.

(By Associated Press.)

El Paso, Texas, April 29.—American troops today awaited the first sign of a rumored revolt in the Mexican city of Juarez, opposite here, which might threaten El Paso.

Troops were placed near the border last night and ammunition issued to them and to the local police, who established a cordon beyond which no civilian was permitted to pass toward the border.

The measures were to protect this city from fire from the Mexican side. In Juarez, loyal Carranza troops slept on their arms.

Rumors that General Escobar and Colonel Mora at the Juarez garrison had split over the revolt question were set at rest by a joint statement that they would remain loyal to Carranza.

The most serious situation reported in Chihuahua today was at Chihuahua City, from where revolting troops were driven last night. A civilian was reported in control of the situation for Carranza and it was said had telegraphed he could hold the place until reinforcements arrived.

Daugherty Gains 900 in 74 Precincts and Continues To Reduce Boyd's Lead.

Harding to Have Not Less Than 39 Delegates And Possibly 42 From Ohio.

Herrick Leads The Republican Ticket by Many Thousands.

(By Associated Press.)

Columbus, O., April 29.—Latest returns this afternoon give Harry M. Daugherty 105,460 and Boyd 100,271, a lead for Boyd of 802 votes with 79 precincts to hear from.

With 63 precincts still out Harding had 125,661 votes and Wood 110,150, a lead of 15,511 for Harding.

(By Associated Press.)

Columbus, O., April 29.—Harry Daugherty, pledged Harding candidate for delegate-at-large, who on the face of incomplete returns last night apparently had been defeated by Wm. Boyd, pledged Wood candidate, made heavy gains in additional precinct returns received today.

Boyd now is leading Daugherty by only 801 with 126 precincts yet to report.

The vote on republican candidates for delegates-at-large in 5,766 precincts out of 5,882 shows:

Daugherty 104,760; Galvin 115,087; Willis 117,379; Herrick 127,322; Turner 102,784; Boyd 105,660.

Returns from all but 93 precincts of the total 5,882 in Ohio late this afternoon showed Senator Harding leading General Wood by 15,569. The vote stood: Harding 125,355; Wood 109,786.

Indications today were that at least 39 and possibly 42 of the state's 48 delegates to the republican national convention will be pledged to Harding while the remainder will be pledged to Wood.

Definite results in the 18th district, Steubenville, will not be known until the official count is made. On the face of incomplete returns one Harding and one Wood district delegate have been elected, although the Wood delegate has a lead of only six votes.

Another district, 19th, Youngstown, still is in doubt, although apparently one Harding and one Wood man were elected.

Complete returns from the 13th district show Harding delegates elected.

OHIO BAPTISTS MAKE HEADWAY IN BIG DRIVE

At the end of the fourth day of the drive of the Northern Baptists to raise \$7,000,000 in Ohio, and with 33 of the 18 counties not yet turning in their reports, \$1,397,609.02 has been raised up to date.

Washington C. H. Baptists up to Tuesday noon had raised \$8,661.33.

Only 15 counties reported to state headquarters at Columbus on Wednesday. These amounts were in addition to those counties already reporting. \$152,269.83 was received on Wednesday.

It is the opinion of Millard Brelsford, state campaign director, that many of the county directors are organizing their reports and will not be ready to submit them until the end of the week when the quotas assigned to the churches are expected to be reached.

Ohio still ranks fourth in the nation's returns on the Baptist drive, which now totals over \$23,000,000, with New York, Massachusetts and Pennsylvania in the lead.

CLINTONS ARE DEAD SAYS DAME RUMOR

There are rumors that the Wilmington Clintons have ceased to exist. It is heard with dismay by the hundreds of fans who have always cherished a memory of the many brilliant battles waged by the defenders of the baseball title of Clinton county.

Certainly it is that their leaders have departed to this city in order to play during the season. Suttles, who led the Clintons on field for years, is piloting the Washington Athletics, while his right hand man, second sacker Doyle, is romping around the keystone corner for the local club also.

Probably some of the old guard at Wilmington will yet revive the old order and furnish some real games for the Washington club.

Fayette county boys engaged in raising pigs will be interested in the following article sent out by the National Spotted Poland China Record Association, from a boy who made a success of hog raising:

"In the spring of 1917 a few farmers of Monroe county, Indiana, with the County Agent, decided to form a Pig Club. They chose The Spotted Poland-China as the kind they would give to twelve boys of the county (one to each township). They went up in Hendricks County and bought twelve female gilts and gave them out March 19, 1917. I received a nice gilt, sired by 'King of England' and out of Spotted Dainty. Her name is English Dainty 9720.

"On April 13th English Dainty farrowed twelve pigs, six males and six females. The first day she mashed one male and one sow pig which left me five sows and five males.

"I never tired of caring for her and her litter. I put her in a shed and kept her clean bedding at all times, plenty of sunlight, and running water when she wanted it. I weaned the pigs when they were about ten weeks old. The pigs were eating well before I weaned them. They began to eat when they were about three weeks old. After they were weaned, I fed them corn and milk feed, such as tankage, brand shorts and rye middlings.

"I sold the five male pigs for more than the feed cost me from the time I received my sow until the fair, when I turned in two choice gifts to the Pig Club to be put out to other boys. I had the sow, the other gifts and the fall litter left. The champions at the fair every year since have been descendants of my sow. One of her litter sold January 22nd in Ray Millburn's sale for \$525.00.

"The people of Monroe County do not take with pure bred stock, so I had not sold any pigs very much above market price until last fall when I sold some to Owen L. Mitchell. Mr. Mitchell offered me \$500.00 for English Dainty but I did not take it. A few days ago Fred L. Obenchain, Secretary of the National Spotted Poland China Record Association, was down and asked me what I would take for my sow. I thought I would price her so high he would not buy her, but I had not more than said One Thousand Dollars till he said, "You have sold her."

THE last pre-war figures show America's fire loss at the astounding figure of \$2.10 per person per year. This is what you and everyone else in America paid to fire according to the last statistics—Four times as much as the Frenchman paid, seven times more than the Englishman and far more than in any other country investigated. If this tax you paid to fire earned you immunity from it, perhaps the cost would be justified.

But fire grants no such stay—its threat is omnipresent. Conflagrations still rage—particularly in America where its toll is greatest.

We have built our towns in a hurry and in the haste have overlooked the fact that no building can be completely protected unless it has a fireproof roof. For the easy path for fire through a community is across that community's roofs.

Protect Your Buildings With Asbestos

In Johns-Manville Asbestos Roofing lies the answer to both community and personal fire safety. For in this fire-safe roofing, adaptable alike to factory or home, warehouse or public building, is nature's rocklike fibre, Asbestos—that repels fire, limits its progress and protects your property.

There is a Johns-Manville Asbestos Roofing for every type of building. Let us know your requirements and we will submit estimate. We shall also be glad to tell you more about these indestructible roofings and the Johns-Manville Roof Registration Policy which continues their responsibility until you get the service promised.

SEEK RENEWAL OF WHITE OAK STATE SCHOOL

Application for the continuance of the State Demonstration School in White Oak school district has been made by George F. Frey, president of the White Oak School Board. During the two years that the school has been in operation it has been of such value to the students and has created such a favorable impression with parents and school officials that application for its renewal was made to Miami University, through which the state department conducts the experiment. The White Oak school is one of two demonstration schools allowed the normal school at Miami by the state.

Superintendent of the district, A. E. Henkle, states that the outlook for the permanence of the school is very favorable and indications are that it will be continued at the same site by the state.

The salary of the teacher which is \$1100 for the eight months, is borne by both the state and by the school district. The state pays \$450 and the district \$650.

Much credit for the unlimited success of the Demonstration School goes to Miss Susan Godfrey, who has filled the position of instructor with marked ability and has brought all lines of work employed to a high standard.

The Demonstration School will close for the summer vacation Friday afternoon with special closing day exercises.

Lesson in Optometry

LESSON SEVEN.

Should a parent wait until a child complains of headaches or of his inability to see as well as other children before having his eyes examined?

No, it is the duty of a parent to remove every obstacle that interferes with his child's success, and to learn as soon as possible the condition of the eyes.

To whom should a child be taken for an examination of the eyes?

To an Optometrist.

Why should only an Optometrist be entrusted with such a duty?

Because his training and equipment enable him to detect and correct all optical deficiencies of both young and old.

Many folks are near-sighted, are they not?

Yes, Optometrists call near-nightedness "myopia." It is caused by nature building the eyes longer than they should be. This prevents seeing well in the distance. See next lesson.

LOCAL FIRMS MAY ADOPT DAYLIGHT SAVING METHOD

Some of the largest business firms in the city are considering formal adoption of the more day light plan even if the city council takes no further action on the petition signed by 500 citizens.

Heads of the concerns considering adoption of the new time declare that with Columbus, Cincinnati, Chillicothe, Springfield and many other surrounding cities adopting the more daylight plan, it has an important and direct bearing on the business of the firms here, with the result that changing the business hours is being considered by the three or four local concerns which employ a total of between 400 and 500 persons.

REPAIR OF DAMAGED BRIDGES COMPLETED

With the exception of one bridge in Perry township all bridges of Fayette county damaged by the recent heavy rains have been repaired and put in passable condition.

County Surveyor Frank M. Kennedy states that the excessive rains damaged or destroyed no less than thirty small bridges, culverts and sewers. Repair work has been made on each after an inspection showed that the structure was defective by the water.

The one bridge yet impassable is one in Perry township which was entirely washed away. It was of twenty foot span with high abutments. This washout is causing little hindrance to traffic, the bridge having been situated on a lightly traveled road.

Because of the rougher surface of the land the southern part of Fayette suffered more damage by washouts than the western and northern sections. Water drains more rapidly in that part of the county, it is explained by the surveyor.

Highland county was struck harder by washouts than any other surrounding district.

The Undercurrent

There is an indefinable, yet clearly recognizable, undecurrent apparent, to impartial observers, in the balloting of the various states that have held preference primary and delegate elections which promises unmistakeably that the politicians are not going to select the next president of the United States.

As certainly as the undecurrent of a mighty river, with scarcely a ripple on the surface, directs and controls the course in which the stream moves along to the end, that undecurrent of crystallized public sentiment has disclosed its existence on the surface of things in the election totals.

If the politicians are wise they will not seek to turn back that current, they will recognize its existence and take heed of its power. Failing to observe the currents that are running strong beneath the surface, underestimating its mighty power or, defying it, proceeding to do their own will, defeat will be their portion at the general election.

Some politicians are making light of the power of the people to make their way before the organized conventions of politicians. Whether they are sincere in their protestations minimizing the strength of the undecurrents or not, matters but little. It is apparent that the people are determined to elect the next president and that their choice will not be a professional politician nor a man chosen and controlled by the politicians.

Blossom Time

The fruit trees in this section are garbed in nature's beautiful spring "toggery." The abundance and beauty of the blossoms which the trees are displaying is proof that nature has not been profiteering either in beauty of garments furnished the trees or in promise of fruit crop.

While the blossom decked trees present a beautiful picture we enjoy it all with just a little fear that even late as it is a blast of cold from the north with frost and a light freeze will pick the petals of white and pink from the trees, prematurely, and blacken with death the tiny heart of the concealed fruit blossom.

We, all of us, want to say that the prospect for an abundant fruit crop this year is the most promising one for a long time and yet, until after we have passed in safety the middle of May it's dangerous to expect too much in matured fruit. So much can happen in so short a time that we almost hold our breath as the riot of beauty in blossoms on the fruit trees causes visions of bumper crops of peaches, apples, cherries, pears and all the other good healthful things to eat that in the sultry days of August and September we can go out in the yard and pick from the trees or off the ground.

Blossom time is here with its promise and its hope and even if the hope is not realized the beauty of the present can't be taken away from us. Blossom time is the cheeriest time of all the year.

Open Defiance

The fact that the sugar trust, at the very time its organizers were in conference at Washington with government officials, advanced the price of sugar one cent a pound is a stunning display of the contempt they hold for the people's government and the people's rights and needs.

It cannot be said, with reason, that the raise in price was merely coincident with the conference—a just happened so occurrence—that's not the way trust managers run their affairs.

A more pronounced slap in the face could not be given to the national government officials than that one on Monday. Neither is it possible to find a clearer display of bolshevism as it is practiced by those men who boast of patriotism and loyalty and Americanism.

Monday's action by the sugar magnates should bring realization to all of us that defiance of law and disrespect for our blessed American institutions, selfish revolution entailing suffering on innocent people is not to be found exclusively with the laborers. Their work is crude and more brutal but the underlying purpose is not more devilish nor more traitorous.

We must realize after the defiant action of the sugar magnates on Monday and from the results of other trusts and monopolies that the people must take action alike against the conscienceless profiteer and the irresponsible red radical.

If the officials do not take affirmative action following Monday's open affront to them and to the people and bring the sugar trust magnates to the bar of justice they should resign.

We have a duty here at home in Americanizing our great corporations that is not second to teaching the vicious foreigner to respect us and our rights and to obey our laws.

POETRY FOR TODAY

ELEGY BEFORE DEATH

There will be rose and rhododendron
When you are dead and under-
ground;
Still will be heard from white syringa-
as.

Heavy with bees, a sunny sound.

Still will the tamaracks be raining
After the rain has ceased, and still
Will there be robins in the scrub,
Brown sheep upon the warm, green
hill.

Spring will not fail, nor autumn fal-
ter.

Nothing will know that you are
gone.

Saving alone some sullen plowland
None but your self sets foot upon.

Saving the mayweed and the pigweed
Nothing will know that you are
dead.

These, and perhaps a useless wagon
Standing beside some tumbled, shed.

Oh, there will pass with your great
passing.

Little of beauty not your own;
Only the light from common water.
Only the grace from simple stone!

Has a miracle happened in the life of Miss Belle Philrose, a girl of Astoria, L. I., who is said to have suddenly developed a voice unusual in quality and under excellent control? That is the belief of the family with whom she makes her home.

The girl singer says the spirit of Patti is her music teacher and has appeared to her on innumerable occasions since the latter part of October, commanding her to sing and play, guiding her in these exercises and even teaching her how to pronounce the Italian words accompanying the song. Miss Philrose says that

she is a changed being" said Mr. Levin yesterday. "She was always very backward and quiet before she had these visions, if that is what they are. I can say that she never had a music lesson in her life and never showed any interest in music until last October, when she suddenly began to play and sing and told us about the appearances of Patti."

Good work clothes, too

Perhaps the Fayette County Farmers, and a good many of our fellow townsmen, think we lose sight of the fact that they wear work clothes a big part of the time.

But we don't; we may not talk so much about them, but that's because buying them isn't so important a matter with you.

It's clothes for "dress up" that you're particular about; they involve more of an investment and they're the ones you rely on when you want to look right.

That's why we have Hart Schaffner & Marx clothes for you—they're stylish; worth the money.

But you'll find the same good values in the things we have here for work wear. Shirts, overalls, gloves, caps, shoes—anything you need, at surprisingly low prices.

Our satisfaction guarantee goes with work clothes as well as the rest of our goods; money's worth or money back.

GOOD ATTRACTIONS FOR THE WEEKEND

The last showing of "Upstairs and Down," with Olive Thomas starring, will be Thursday night at the Wonderland theater. It is a picturization of the famous stage success and Miss Thomas, with her abundance of charm and beauty and effervescent personality gives a delightful characterization of Alice Chesterton, an entrancing little flirt, whose life seems to be spent in getting in and out of scrapes.

The play starts at a house party in a fashionable country home, and develops a plot full of complications and tangles, with the upstairs and downstairs doings of the house party furnishing the main theme.

It is delightfully entertaining.

A week end attraction at the Colonial is a William Fox production—a typical Mix drama of the great outdoors, "The Feud," with Tom Mix starring.

It is a strong Feudist drama and said to be the biggest production of this "dare devil of the screen". The tale of the days of 1869, the most romantic and thrilling of American history, provides plenty of action and sensational episodes.

Among the queer and strange exhibits of the Superior Shows is Jacqua,

NOT A PARTICLE TO BE SECURED

Persons who seek a drink of "spirits frumenti" in this city must go to others towns if they are to secure it through the medium of a doctor and drug store.

Not a physician in this city has taken out the right to fill out the blanks to a "patient" and there is no place to get the prescription filled. The four drug stores have done away with the issuance of whiskey for medical purposes and have washed their hands of that line of business.

In places where liquor may be secured, it is understood that Columbus is the closest oasis, and government blanks must be filled out by both physician and druggist and these at the rate of not more than one pint to any individual in ten days.

Another prohibitive factor in securing the liquor is the price. It is higher than ever before and still mounting.

About the only source of wet refreshment available is through the agency of the fast disappearing bootlegger and the thought of wood alcohol passing down one's throat has strangled the trade.

Beware of the man who has a mania for telling hard luck stories.

THREE YEARS FOR ANARCHY
 New York, April 28.—Meyer Graubard, the only American among six men arrested together on a charge of criminal anarchy, was sentenced Tuesday in King's county court to three months to three years in state prison.

SAYS NEWSPRINT PAPER CORNERED BY SPECULATORS

Washington, April 29.—"Aburdly" high prices for news print paper, bought on the spot market, are due to a "corner" resulting untarily from the present shortage George McAneny executive manager of the New York Times, delayed today before the Senate committee investigating the paper situation.

The market price is twice or three times as much as that for paper bought under contracts, he said.

Brokers and small manufacturers were blamed by Mr. McAneny for the high prices. Answering a question by Senator James A. Reed, Democrat, Missouri, as to whether there was profiteering he said "they are selling the paper."

SHERMAN MANAGER HAS FAST HURLER

Private Chester W. Trout, manager of the Camp Sherman baseball team scheduled to play the Washington Athletics in this city next Sunday, is the son-in-law of Chas. Keaton of this city and is well known here.

Trot has notified the local club that he has a pitcher who struck out eighteen men, made two home runs and two singles in his last game. He also states that they have lost but one game and that was a thirteen inning affair 3 to 4.

He has sent the following lineup of the men he expects to bring to Sunnyside park: Wajert; Lozier, p; Crow, 1b; Smith, 2b; Shanefelt, 3b; Lackey, ss; Klug, cf; Green, lf; Hiller, rf; Ware and Hernyak, substitutes.

Wajert, Klug and Ware will be remembered as members of the Camp Sherman Base Hospital basket ball team which played the Y. M. C. A. team in this city last winter.

WASHINGTON METAL MEN ARE WELCOMED

Messrs. James Boone and John Boone, of Detroit; Horton, of Wilmington, and Lubber of Springfield, representing the Washington Metal Product Co were guests of the Dutch Treat Club at their luncheon at the Y. M. C. A. Thursday. The occasion was designed especially to welcome the new business men to the city and more than fifty members of the club were present.

The guests were called on for short talks and they responded by expressing their pleasure in being present and also discussed their business aspects to some degree. It was stated by one of the members of the new firm that they expected to begin operations by the first of next month and within a short time to be running full force.

FALL OF SLATE KILLS TWO

Athens, Ohio, April 29.—William McWhorter, 50 years old, and George McWhorter, 22 years old, father and son, were killed by a fall of slate in a mine near Carbondale late Wednesday. Antner son of McWhorter, working near by, found the bodies.

MRS. WILLIAM LUCAS IS LAID TO REST

The funeral services of Mrs. William Lucas, held at the home on Washington avenue Wednesday afternoon, were very largely attended, many relatives and friends from the country, especially in the White pine neighborhood, in the gathering.

Rev. K. B. Alexander officiated and followed the reading of the memoir with a beautiful talk, speaking tenderly of the beloved mother and offering the consolation of the future hope.

The hymns, "Some Day We'll Understand" and "We'll Meet Him Face to Face" were sung by Rev. Alexander and Miss Daisy Cockerill.

There was a profusion of lovely flowers from friends, family and neighbors.

The burial was made by the side of the husband in the family lot of the Washington cemetery. The pallbearers were the sons-in-law, Mr. Harley Colwell, of Circleville; Mr. Wm. Backenstoe, of Mt. Sterling; T. O. Dowden, Frank DeWitt, and two grandsons, William Lucas and Guy Dowden.

Relatives who came from a distance were Mr. and Mrs. Albert Stingley, Messrs. Alva and Chas. Stingley, of Wilmington; Mr. and Mrs. Guy Dowden, of Columbus; Mr. Carl Grubbs, Columbus; Mrs. Scott McCafferty and Miss Nettie Henry, of Mt. Sterling; besides Mr. and Mrs. Harley Colwell, Mr. and Mrs. William Backenstoe, who were at the home during Mrs. Lucas' last illness.

A number of friends from Mt. Sterling and Circleville also drove over, including Rev. Teft and wife, Mr. and Mrs. Troutman, Mrs. Krouse, Miss Drury, Miss Ella Henry.

HOW REFORMATORY GIRLS ARE HANDLED AT MARYSVILLE

(By Associated Press)

Marysville, Ohio, April 28.—Mrs. Louise Mittendorf, matron in charge of the Ohio Reformatory for Women here, is doing her part to relieve the domestic help situation in the state. She has from 150 to 200 girls and women under her care at all times. As there is not enough work at the institution to keep all of them busy, she "farms out" to housewives some of the more trusted girls.

Ninety percent of the girls "farmed out" as domestics have made good according to Mrs. Mittendorf. Many of them within a short time have been recommended for parole or pardon. "If they make good on the outside as domestics for six months, we have every reason to believe they will make good indefinitely," she says.

Mrs. Mittendorf receives requests from all parts of the state for domestics. Housewives receiving the girls, send the matron their pay. The money thus accumulated is given the girls when discharged. Five dollars a week, in addition to room and board, is the minimum wage.

The girls are not permitted to leave the homes in which they are employed at nights, nor are they permitted to have visitors. In the event the girl proves unsatisfactory or violates any rules, the institution is to be notified immediately.

The unfortunate man's friends live a long way off.

SUNDAY EDITION WILL BE 10 CTS.

With Congress investigating the enormous price of white newsprint paper, which has put hundreds of newspapers out of business and is now threatening thousands of others, the price continues to soar and publishers are reluctantly forced to charge increased prices for their advertising and subscription to keep from suspending publication.

In this connection the Ohio State Journal Thursday carried the following announcement:

"Effective Sunday, May 2, the price of the Sunday edition of The Ohio State Journal will be increased from 7 cents to 10 cents. This announcement is regretted by The State Journal, but it is dictated by necessity."

"Publication costs of 1920, compared with those prevailing in pre-war years, are very much higher. White paper, for instance, has advanced over 600 per cent in price, and even at the market figure, is almost unobtainable. All other materials and labor also have increased."

"In many cities Sunday newspapers have been on a 10 cent basis for months. For some papers 15 cents is charged."

"The Sunday State Journal has been sold for 7 cents in the face of advances elsewhere. It desires, of course, to maintain its widely recognized standards of most complete and timely service to the public and finds itself under the necessity of raising its Sunday rate."

"For the present, at least, the price of the daily will not be changed."

Farmer Keeper Refers to Nerv-Worth, Which He Keeps, As "A Doctor in the House"

The giver of this typical statement lives near Chester, West Virginia. When he made it very recently to East Liverpool's Nerv-Worth druggist he indicated the existence of a widespread practice. Thousands "keep a bottle of Nerv-Worth handy" in their medicine chests.

Larkin's Drug Store. — We have used Nerv-Worth at our house, and think it is a very good medicine. My wife has been bothered with stomach trouble for years, and she gets a great amount of benefit from Nerv-Worth. I find it helps me whenever my stomach gets out of order or my appetite fails. Just keep a bottle handy and take a few doses, and I am all right again.

How much should I give to make this a better world?

A CERTAIN man in New York filled out his income tax report.

It showed an income so large that his tax was 53%. And his total gifts to church and charity for the year were \$148.

Think of it—thousands spent for luxuries and pleasure for himself; and \$148 to leave the world a little better than he found it!

Most of us do better than that; but not so very much better.

Our average daily gift for all church causes is

- less than we spend for daily papers
- less than a local telephone call
- less than a third of the day's car fare
- less than 3 cents a day

No wonder that 80% of the ministers of America are paid less than \$20 a week. No wonder that the church hospitals turn away thousands of sick people a year. No wonder that China has only one doctor for every 400,000 people. No wonder that every church board and charity society is forever meeting deficits, forever passing the hat.

It isn't because we are selfish; it isn't because we don't want to help. It's just because no one has ever put up a great big program to us, and asked us to think of the work of the church in a systematic businesslike way.

The Interchurch World Movement represents the united program of thirty denominations. They have surveyed their whole task, no business could have done it better.

They have budgeted their needs; no business could have a more scientific budget. They have united to prevent the possibility of waste and duplication. At least a million dollars will be saved by the fact that thirty individual campaigns are joined in one united effort.

And they come to the men or women who love America—to you—this week asking you to use them as the channel through which a certain definite part of your income can be applied to make this a better world.

Only you can determine what part of your income that should be.

It's a good time right now to answer that question. We're passing through the world just once; how much better will the world be because you passed through?

Could Not Eat or Sleep

Vinol, our Cod Liver and Iron Tonic, gave him appetite and felt like different man.

Ruston, La.—"I am a working man and got all run down so I could not eat, sleep or work. Vinol was recommended for my condition. It built me up so I eat well, sleep well, can work all day long and not feel tired. In fact, I feel like a different man since I took it." —JOHN H. WILSON.

"Men fret and worry." That's why they overwork, get nervous, all run down, have no appetite, and can't hardly drag around." Vinol creates a hearty appetite, induces sound sleep, invigorates the nerves, creates strength and quietes the nerves.

It is the beef and cod liver peptones contained in Vinol aided by iron and glycerophosphates which makes it such a famous blood maker, nerve builder and strength creator.

DERN'S SUPPORT IS VERY RAGGED AND SENIORS WIN

Seniors of Washington High School had little trouble in taking the second of their series of interclass games at Sunnyside Park Wednesday evening when they outclassed the challenging Sophomores 10 to 3.

Ted Merritt made his first appearance in high school athletics by going into the box for the Seniors and stopping the Sophomores to a standstill. His support was of high class.

"Red" Dern, out on the hill for his team pitched an airtight game but his support was of the sieve variety and although he fanned every man on the opposing squad at least once the runs trickled over the home plate in an beatable style.

The Seniors took an early lead and scored in each of the seven frames except the fourth when they stopped for a breathing period. Merritt allowed a run in the third and eased up a bit in the seventh when the Sophomores started a rally and put across two runs.

Preparations are now being made for playing the thus far invincible Seniors with a picked team made up of the best players of the three lower classes. In each game played the Seniors have been able to take the decision without hardly a struggle and a picked team is the one combination to give them worry.

Score by innings:

1 2 3 4 5 6 7
Seniors 2 2 1 0 2 2 1—10
Sophomores 0 1 0 0 0 2—3

The lineups:

Senior—Wilson, c; Reif, 1b; Swartz, 2b; Geibelman, ss; Weaver, 3b; Cockerill, lf; Smith, cf; Cheeseman, rf; Merritt, p.

Sophomores—Tracey, c; Hitchcock, 1b; Stewart, 2b; Wood, ss; Willson, 3b; Dern, p; DeWees, 2b; Wade, cf; Case, rf.
